Subject: NSF/cement leaching call follow-up

Jennifer,

Thanks for organizing the call with NSF, Inc. It was very informative and looks like they (and their work) will be a useful resource. I have the first names of the NSF folks on the call, Cliff and Scott, but do you have more contact info for them (last name, title...) that you can provide to those of us on the call? Also, Cliff will be sending materials to you (experimental protocols, analytical methods, example reports for certain experiments, etc.). Feel free to distribute this info to EPA call participants when you receive it. Thanks.
